 on installation time
 Convenient built-in tabs
 for easy installation

K-FLEX EC ADHESIVE

The new **EC ADHESIVE** is manufactured with a factory-applied specially formulated bonding adhesive. The revolutionary technology is pre-slitted with convenient built-in tabs applied on both sides, making the pipe insulation convenient and quick to install.

The new **EC ADHESIVE** has high performance characteristics thanks to the new self-adhesive system which significantly reduces the use of contact adhesives, thus allowing for improved working conditions and compliance with safety requirements.
